

Congratulations Ancient World Traveler you have completed your classroom study of Ancient Egypt. It is now time to take your learning a step further. You will now begin taking control of your own learning and becoming an **INDEPENDENT LEARNER!** That is why you are here.... in the **library**. In the library you will have access to everything you need to complete your final project – a business proposal to Pharaoh Filly.

In your study of Ancient Egypt you have studied the importance of the Nile River. You know that the Nile is known as the lifeblood of Egypt and that without it Egypt would be a desert. You have become familiar with the many characteristics of the Egyptian civilizations. You must create a business that utilizes the Nile River and benefits the Egyptians.

Your completed proposal includes:

- A business letter to Pharaoh Filly explaining how your business will benefit Egypt and utilize the Nile. Remember you are trying to persuade the Pharaoh to choose your business. Your letter must contain evidence of your learning and that evidence is proven with a work cited page. You must use a minimum of 3 sources. One source must be print, one must be electronic, and the other sources can be of any variety. For example you could use videos or magazines. When writing your business letter make sure you include details that explain how it utilizes the Nile River and how the business will benefit the Egyptians.
- All graphic organizers and notes that aided you in the completion of the project must be completed and turned in.
- **One** of the following must also be included:
 - A 3-D model of the business accompanied by an explanation either written or podcast. The materials used to build it must clearly be labeled.
 - Drawing of your business that illustrates both what your business will look like on the inside as well as the outside. A detailed explanation is also needed.
 - A video of a commercial or skit can be created that describes your business and explains how it will utilize the Nile and benefit the Egyptians.
 - A slide presentation (PowerPoint, Haiku Deck, Google Slide, or Keynote) that visually explains your business.
 - A Glogster interactive poster that visually depicts your business

Egyptian Decree for all to see....

I, Pharaoh Filly, envision a new Egypt. Like the great leaders before me, Queen Hatshepsut and Pharaoh Ramses the Great, I will be remembered for the prosperous change made in Egypt during my reign.

I am looking for people to create businesses that will be situated along the Nile River. The business you create must utilize the Nile and its resources, and be a huge benefit to all Egyptians. All business proposals must be complete and demonstrate great knowledge and pride toward Egypt and its culture. I will select the 6 most worthy businesses to be constructed.

I hope you have heard my plea and understand that all who seek the honor of being chosen should keep in mind that I am not only a Pharaoh, but also the living god on earth.

Shame will come upon all who do not take this task seriously!
